Examined	Results / Findings			
DJS3 – Cigarette End in garden	<p>The crime scene DNA profile obtained from exhibit DJS3 relating to An address, England/Wales has generated a match to the DNA profile held on the National DNA Database under the name of B. Suspect, DOB 01/01/1990.</p> <p><i>As an illustration for this type of match, the DNA findings are in the order of one billion times more likely if the crime scene DNA originated from the above named person rather than from someone other than, and unrelated to, him/her (one billion is a thousand million). This estimate is likely to be conservative but could change, if calculated by a Forensic Service Provider (FSP) using the specific DNA profile results in this case.</i></p>

Evidence Type Supporting / Technical Information This report relates to a match following searching against the National DNA Database. Technical information, including issues that may affect the interpretation of DNA evidence, such as mixed profiles and discordance, is available from FSPs, CPS, and the National DNA Database documentation websites.				
Case management – To the court and to the defence <p>The prosecution propose to rely on the forensic evidence contained in this SFR and if there is a trial, to adduce it by way of a s10 CJA 1967 admission to the general effect that the exhibit(s) listed were forensically examined and the examination produced the result(s) described. Therefore should there be a real issue in relation to this forensic evidence, such that the admission cannot be made, the prosecution ask that the defence identify the issue (Crim.PR.3.3 and Crim.PR 19.3(2)).</p> <p>If this report contains expert evidence, then, in accordance with CPR 19.3(2), the defence is required to serve a response to this report as soon as practicable, and in any event not more than 10 business days after service of the report setting out which, if any of the conclusions in this report are admitted as fact, and where a conclusion is not admitted what are the disputed issues concerning that conclusion.</p> <p>This SFR is not a witness statement to which the provisions of s9 CJA 1967 and Crim.PR 16 apply, nor is it an expert's report to which the provisions of Crim. PR 19.4 apply, its purpose being to introduce any expert evidence contained therein as admitted fact. If this SFR contains expert opinion, it is a summary of that opinion served pursuant to Crim. PR 19.3(1).</p> <p>SFRs assist courts to fulfil their duty to actively manage the case (Crim.PR 3.1) by ensuring that evidence is presented in the shortest and clearest way and by facilitating the early identification of the real issues. (Crim.PR 3.2). Each party must actively assist the court in fulfilling its duty (Crim.PR 3.3).</p>

Additional information / Evidence Type Technical Information			
<p>Please note the above list of exhibits relates only to exhibits submitted for examination and are relevant to my area of expertise and / or to the findings set out in the Results/Findings section of this report. The list was accurate at the time this report was generated. All exhibits will not necessarily be listed here. Should a comprehensive list of exhibits be required, please contact the Investigating Officer.</p> <p>The prosecution will not ordinarily undertake further forensic analysis unless and until the exact issue that such analysis needs to address has been identified; and only if, in light of that issue, it is appropriate that the next stage of analysis should be undertaken by an expert instructed by the prosecution rather than an expert instructed by the defence. If appropriate a direction under Crim.PR 3.5(2)(h) as to the order in which the expert issues should be determined may be sought.</p>			
Important: Where real issue(s) are identified and if additional forensic work is necessary, please notify the agreed Force contact in writing, listing the issue(s) to be further addressed. Delivery dates for additional forensic work to be agreed on a case by case basis.		Forensic Contact Details:
