Information and Result			
<p>The information contained in this report relates to the initial preview of the undersole of the footwear against footwear marks recovered from an alleged crime scene.</p> <p><b>(delete as appropriate)</b></p> <p><b>SCREEN – Unsuitable for further comparison</b> The crime scene exhibits XXX show footwear marks that are similar in pattern to the undersole of the footwear XXX. However, the marks are too poorly defined for any further meaningful comparison to be carried out at this stage.</p> <p><b>SCREEN – Suitable for further comparison</b> The crime scene exhibits XXX show footwear marks that are similar in pattern to the undersole of the footwear XXX. These marks are suitable for a further more detailed comparison to determine a strength of evidence. A full footwear comparison has not been carried out at this stage and it is possible that the footwear could still be excluded from having made the marks. A full comparison will be undertaken in due course, if requested by submission of an MG21. At that stage an MG22B report can be produced, if required. Those examination results will supersede this report.</p> <p><b>SCREEN – Exclude same pattern</b> The crime scene exhibits XXX show footwear marks that are similar in pattern to the undersole of the footwear XXX. However, the crime scene marks have not been made by the submitted footwear.</p> <p><b>SCREEN – Exclude different pattern</b> The crime scene exhibits XXX show footwear marks that are different in pattern to the undersole of the footwear XXX. Hence, the crime scene marks have not been made by the submitted footwear.</p>
