Examined (Delete if not required)	Results / Findings		
CCTV footage from XXXX capturing collision vehicle (exhibit XXXX, File no. XXXX)	Based on the forensic analysis of the CCTV footage from XXXX it is my opinion that the estimated speed of the Subject Vehicle was 70.4 +/- 2.8 mph approximately 130 metres prior to the collision on XXXX.		
Evidence Type Supporting / Technical Information All CCTV footage was supplied in the system's native recording format with the proprietary player included. Verification of the CCTV system's recording pattern was conducted using calibrated Home Office approved Frame Interval Timers. Analysis of the testing footage determined that the system recorded at 20 Frames per Second (FPS); with consistent intervals between each frame of 0.05 seconds. Examination of the footage frame-by-frame showed that the vehicle travelled between 2 identified road features in 15 frame intervals (0.75 seconds). The distance between the road features was measured to be approximately 23.6 metres.			
Declaration of Opinion The findings expressed in this Streamlined Forensic Report are matters of opinion, not statements of fact. However, evaluation of forensic evidence such as this is supported by study and experience, applying specialist knowledge and skills to forge reliable opinions and interpretations, which are subjected to peer review (as defined within the organisation's Quality Management System) before final reporting. The decision-making process is supported by, and can be evidenced through the use of working notes.			
Status of Compliance with the Code of Practice published by the Statutory Forensic Science Regulator (Insert appropriate declaration – Refer to FSR Guidance: Declarations of Compliance and Non-Compliance with the Code of Practice FSR-GUI-0001)			

Case management – To the court and to the defence

The prosecution propose to rely on the forensic evidence contained in this SFR and if there is a trial, to adduce it by way of a s10 CJA 1967 admission to the general effect that the exhibit(s) listed were forensically examined and the examination produced the result(s) described. Therefore should there be a real issue in relation to this forensic evidence, such that the admission cannot be made, the prosecution ask that the defence identify the issue (Crim.PR.3.3 and Crim.PR 19.3(2)).

If this report contains expert evidence, then, in accordance with CPR 19.3(2), the defence is required to serve a response to this report as soon as practicable, and in any event not more than 10 business days after service of the report setting out which, if any of the conclusions in this report are admitted as fact, and where a conclusion is not admitted what are the disputed issues concerning that conclusion.

This SFR is not a witness statement to which the provisions of s9 CJA 1967 and Crim.PR 16 apply, nor is it an expert's report to which the provisions of Crim. PR 19.4 apply, its purpose being to introduce any expert evidence contained therein as admitted fact. If this SFR contains expert opinion, it is a summary of that opinion served pursuant to Crim. PR 19.3(1).

SFRs assist courts to fulfil their duty to actively manage the case (Crim.PR 3.1) by ensuring that evidence is presented in the shortest and clearest way and by facilitating the early identification of the real issues. (Crim.PR 3.2). Each party must actively assist the court in fulfilling its duty (Crim.PR 3.3).

Additional information / Evidence Type Technical Information			
Please note the above list of exhibits relates only to exhibits submitted for examination and are relevant to my area of expertise and / or to the findings set out in the Results/Findings section of this report. The list was accurate at the time this report was generated. All exhibits will not necessarily be listed here. Should a comprehensive list of exhibits be required, please contact the Investigating Officer. The prosecution will not ordinarily undertake further forensic analysis unless and until the exact issue that such analysis needs to address has been identified; and only if, in light of that issue, it is appropriate that the next stage of analysis should be undertaken by an expert instructed by the prosecution rather than an expert instructed by the defence. If appropriate a direction under Crim.PR 3.5(2)(h) as to the order in which the expert issues should be determined may be sought.			
<u>Important:</u> Where real issue(s) are identified and if additional forensic work is necessary, please notify the agreed Force contact in writing, listing the issue(s) to be further addressed. Delivery dates for additional forensic work to be agreed on a case by case basis.		Forensic Contact Details:	XXXX Forensic Collision Investigation Unit Address: XXXX Tel: XXXX
